#### To Whom It May Concern

Anita Theis has with her drive and creative mind been an important asset in the development of Donation Road.

During the project, her eye for details clearly facilitated the development process. Anita is highly committed to work and has in many difficult situations been an important and critical link for the project's success.

Donation Road consists of an international and multicultural team and Anita has with her social competence successfully interacted and collaborated with everyone. She has in fact been invaluable in bringing the group closer by creating a positive spirit in the team.

As a person, Anita is effective and structured, which are important qualities when working with projects and start-ups like Donation Road. She was rapidly given more and more responsibility, which she handled with professionalism. I highly recommend Anita for any future challenge that she decides to face and I look forward to working with her again anytime in the future.

If you have any questions regarding Anita's time spent at Donation Road please do not hesitate to send me an email at [hello@donationroad.com](mailto:hello@donationroad.com).

Yours sincerely,

Francesco Stasi  
COO  
Donation Road
